

# HAVE YOUR SAY!

Your voice  
Your priorities  
Your union

We're asking members what's important to them and what they think the union should focus on. The Our Union, Our Power survey is the main tool we have to reach out to as many members as possible and your participation will shape the Members' Plan and help to set the direction for where our union needs to go.

The Members' Plan will outline some of the challenges we will face over the next three years and put forward some broad priorities for our union to focus on.

It's a chance for PSAC to engage the broader membership in the Convention process, and take direction on what the members want from their union and what they are willing to do for their union.

When completed, the Members' Plan will be forward-looking and will present some new ideas while focusing on some key challenges for our union and on results we can attain. It will also measure our progress as a union.

But we need your help to do it. This Plan is *from* the members, *for* the members. Help us set the direction for where the union needs to go in the next three years: What should the union's priorities be? And what do you want the leadership to focus on?
