Pride Winnipeg 2014 “Without Borders”

The theme takes its cues from LGBTTQ* history, the celebration of hard-won victories for equality and justice, a vision of equality for all, and a deep desire to make real change at home and abroad. The theme is centered on the overarching theme of Pride itself: of being “Out and Proud” as a group, as a movement, and as an ideal. To encourage others to be unashamed of their identity and to march proudly. It’s concentrated on the vision of a world **WITHOUT BORDERS** both in a global sense for justice and equality, and also in a personal sense, for freedom of one’s own expression without barriers.
